

SASHWORK

S O L U T I O N S

Don't feel it. Seal it!

Whatever your requirements, we can restore, draught-proof, manufacture and install.

Our Services

SASH WINDOW RESTORATION

We pay special attention to the character of your windows before carefully restoring them to their former glory.

MANUFACTURE AND INSTALLATION

Single/Double Glazed Sash and Case Windows

We can handcraft your new sash and case windows to any building regulations or to a new style of your choice.

DRAUGHT PROOFING SYSTEM

Not only does our draught proofing system help both sashes to run a lot smoother within the frame but it will both dramatically reduce heat loss and cut your energy bills.

DOUBLE-GLAZING EXISTING SASH WINDOWS

As well as restoring your sash and case windows we can also install double glazed units into them, to promote noise reduction and reduce condensation.

Whatever your requirements, we can restore, draught-proof, manufacture and install.

Draught Proofing System

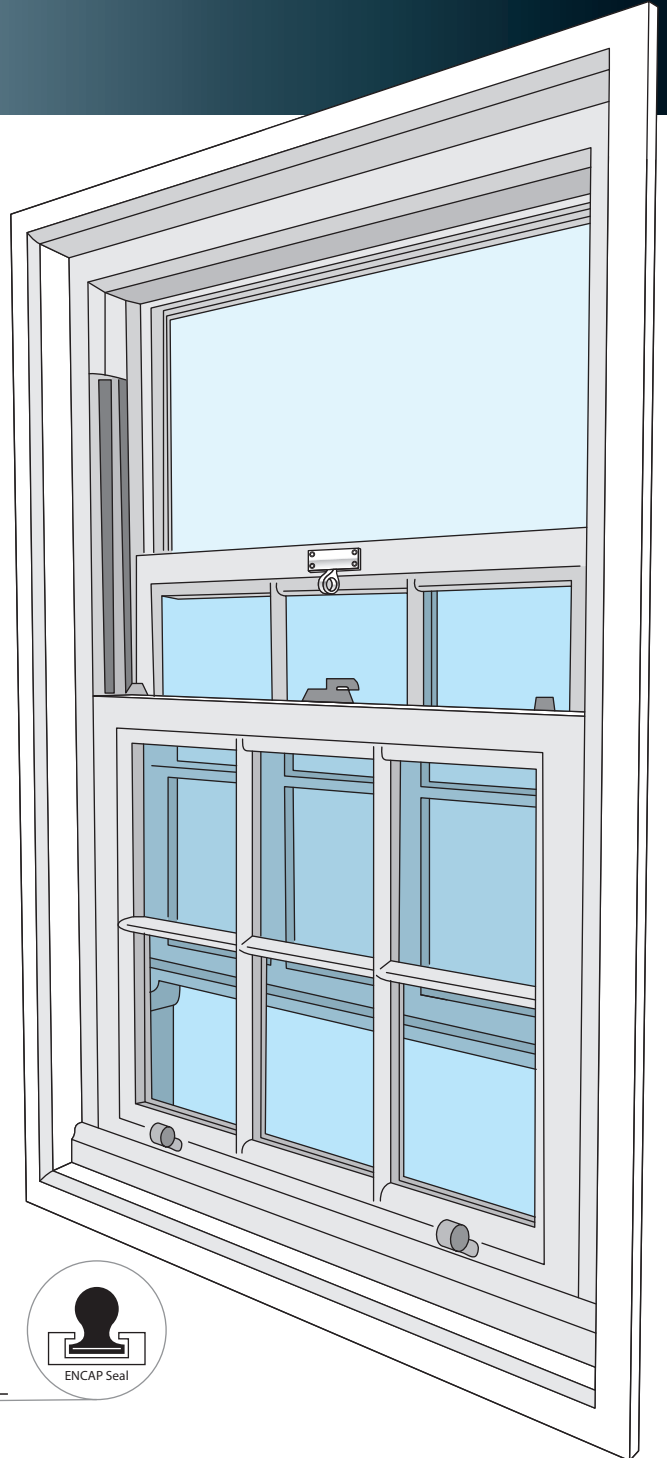

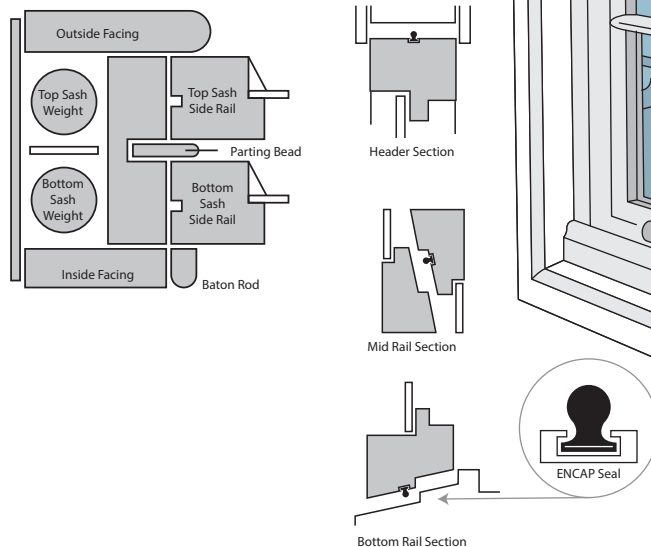

This system requires both the upper and lower sash to be routed and an encapsulated seal to be carefully installed. This seal is constructed to maintain maximum performance over the lifetime of your sash and case window.

This seal is totally concealed within the frame of the window which makes it the perfect system for buildings that are listed and where you would like to keep the character of the building intact.

What makes this seal by far the best draught proofing system is its ability to remain flexible even after over painting, one of its more important features as other seals tend to harden and become defective. The ability to return to its original shape after compression makes it the ideal seal for this application.

Typical cross section of timber sliding sash window showing position of ENCAP seals incorporated into side rails

Available Seals Heights
6.5mm, 7.5mm, 9.5mm

Whatever your requirements, we can restore, draught-proof, manufacture and install.

SASHWORK SOLUTIONS

"I was so pleased with the initial works done that I have since had further work completed by Kevin and Graham."

Stephanie Kidman - Westcot B&B, Callander

"Community Central Hall are delighted with the new bespoke windows. Customers and staff alike have commented on how good they look - and how much more comfortable they make our rooms feel. Kevin and the team from Sashwork Solutions were great to work with, especially as we had to keep open to the public during the renovations. We look forward to them working on phase two... as we secure funding to complete our works!"

Community Central Hall - Glasgow

"Great service. Exceptional windows - can recommend highly."

Sue McGinty Glasgow, West End

"Kevin and Graham were efficient, considerate and clean workers, and nothing was too much for them in terms of reinstating the windows. Having suffered from draughts and condensation through our original single sash windows we now have draught and condensation free living! The finish is outstanding and we have since recommended them to neighbours and friends. I couldn't rate them more highly and wish them continued luck in their business."

Nicola Scott - Lenzie

"Kevin and team were easy to deal with, quick to respond to initial visit request and subsequent quote was very competitive. Lead time for sash windows was realistic and delivered on time. Very pleased with final outcome. Will definitely use again and recommend without hesitation."

Sophia Sakellariou

"Amazing work! The sash windows are so stunning, they have made our new home feel very special, cosy and also elegant, they are so well made and have beautiful attention to detail. These guys are talented and super hard working, everything was done with exceptional quality. Thanks guys!"

Joanne Robertson

"Really pleased with the windows provided by SashWork solutions. They were very professional, efficient and hard working - especially in some challenging weather conditions. Kevin and his team were a pleasure to deal with and we are delighted with the finished windows."

Malcolm Hay

"We have used Sashwork solutions couple of times so far to install double glazed sash windows and are delighted with the windows and the service. They are reliable and trustworthy and would definitely recommend them. We are looking forward to getting them back to do the rest of the house!"

Deb Anderson Carole

Whatever your requirements, we can restore, draught-proof, manufacture and install.

WORK SOLUTIONS

"We recently brought Kevin and his team into a Refurbishment project in a large flat in the Southside of Edinburgh. From first contact I found them to be very professional, their quote fair and we and our end client were delighted with their windows and overall experience."

"For this I give Sashwork Solutions my highest recommendation."

Steven McKenzie, McKenzie Owens Projects Ltd

"My second time this year using Kevin and his team at SashWork. The first job was for 5 windows in a ground floor main door flat in Edinburgh. This time it was 8 windows in a top floor tenement building also in Edinburgh."

"Kevin knows his job well and has a lot of experience talking customers through the options and reassuring them whenever questions or doubts arise. Competitive quote, tidy workmanship and great craftsmanship in the product. What more could you ask for?"

"It's really reassuring to be dealing directly with the owner of the company who takes responsibility for making sure everything goes right, and not some faceless corporate company who just wants to get you to sign on the dotted line via some sales guy that you never see again."

"A really trustworthy team who even helped me up 3 flights of stairs with a huge fridge. Can't prove their attitude to the customer better than that!"

George Brownlee

"Highly recommend this company. Build high quality bespoke sash and case windows. Tower Nursery is looking great. Thank you."

Asif Allauddin

"Kevin and his team replaced our very worn out and rotten sash windows with double glazed units in April. Absolutely brilliant service throughout and we're made up with the windows. All the rooms were draughty with the old windows but are roasty toasty with new sash frames and double glazed units in. Going back to get the rest of the flat done! definitely recommended!"

Stevie Howarth

"Absolutely delighted with my new windows. Kevin and the team turned my old, drafty single glazed sash windows into superb looking double glazed sashes whilst keeping all the character and dimensions required for a listed building. The windows are a real asset to the property now. Sashwork Solutions was recommended by a friend and I've already recommended them to a neighbour. Thanks guys"

Stephen Mitchell

"Great service from Kevin and the team at Sashwork Solutions! I absolutely love what they've achieved to restore the original style of windows to my Glasgow tenement - but better! Would recommend them to all!"

Murray Will

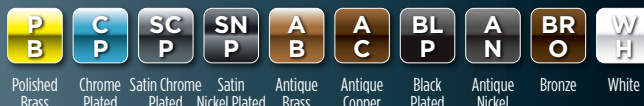

"Can I just say that Kevin and his team did an amazing job of my mums windows. We had been putting it off for many years due to the cost of having sash windows installed. It was great to come across a company that was local, friendly and affordable."

"The team was very efficient and professional. I would highly recommend sash work solutions to anyone looking at putting windows in."

"Great work guys. Thank you very much."

We also offer a precise paint matching service for window frames using the RAL colour system - opening up a world of possibilities for your property.

By offering this colour matching service, we can assure our clients that the new installations will be a flawless match, enhancing the curb appeal and value of their property.

Whatever your requirements, we can restore, draught-proof, manufacture and install.

Finance

Sashwork Solutions are able to offer a loan option thanks to Phoenix Financial Consultants Limited (Phoenix) on their windows and doors quotes.

Using our online Loan Calculator, you can see example monthly repayment and total amount repayable values. You can also enter the amount and term as well as a deposit to display example repayments.

For more details, scan the QR Code below.

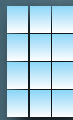

If your application is approved, once you sign the loan agreement, your installer will be notified and will arrange an installation date to suit you. Your first loan repayment will typically be taken via Direct Debit one month after work is complete.

- Phoenix acts as a credit broker (it is not a lender) and can introduce you to a loan for the cost of your windows and doors from a panel of lenders.
- Loan terms available from 3 - 10 years.
- Interest rates available from 10.90% APR Representative. You may be offered a higher interest rate depending on your financial circumstances
- You can pay a deposit if you wish (directly to the trader) or apply to borrow the entire amount.
- Overpayments and early repayments can be made at any time. If you make overpayments, you will avoid future interest, and the length of the loan will be reduced.
- You will need to decide if the loan is right for you. Neither Phoenix nor your installer can give you any financial advice.
- Loan approval is not guaranteed and you will need to complete a short online loan application which will assess your financial circumstances and your ability to repay any loan. The lender will perform a hard search on your credit file.

Whatever your requirements, we can restore, draught-proof, manufacture and install.
